WEDGE ELEVATORS

DORNER®

By Columbus McKinnon

Compact, Rapid Transfer Wedge Elevators for Moving Products through Elevations!

- For efficient elevating and/or lowering of packaged product from production levels to overhead run for effective use of floor space or ease of operator access
- Highly flexible design may be configured to the layout requirements
- Ideal for environments requiring small footprints, transition between levels, changing orientations, de-pucking operations and creating passageways on the production floor
- Rapid transfer rates make wedge elevators ideal for continuous high capacity operations such as packaging lines
- Small footprint maximizes floor space
- Uses side pressure and durable urethane grippers to firmly hold products during transport
- Compatible with cardboard boxes, metal cans, plastic containers, etc. Product must be able to withstand some side pressure
- Can be configured with manual adjustable conveyor positioner for quick product size changeover
- Various configurations can change product orientation
